

COVID-19 Procedures for the clubhouse

Updated October 1st 2020

Worthing Hockey Club must ensure they are staying within the law and following England Hockey guidelines. We need all WHC members to take responsibility for following the procedures at all times. We will be implementing a 2 strike then out procedure for any individual not following the guidelines.

Rules for the clubhouse:

1. The toilets are open for home and away players, officials and coaches and spectators, however, everyone who goes into the club house must sign in on the clubhouse code in addition to the playing code. The toilets should be cleaned after each match/team have left. This way if we have a positive case we know that the teams will not have cross contaminated through the toilets.
2. The club house is open to all, as long as they:
 - a. Sign in on the club house app - this is in addition to the playing app. We need them registered in each location separately to meet the law
 - b. Use hand sanitiser on arrival
 - c. Sit at a table at all times - no standing around or moving between tables
 - d. Are in groups of no more than 6 people
 - e. They do not socialise with other players on other tables. They must stay in discrete groups of 6.
 - f. If members are not eating/drinking and are sitting watching another game they must have a mask on
4. Anyone acting as a waiter/providing table service or working in the club house must wear a mask at all times
5. We are not using the club house kitchen under any circumstances

Home teams must support the club by helping out on table service and behind the bar when needed. We also expect everyone to help enforce the rules.
